A Packet of USDA Farm Service Agency
(FSA) Eligibility Forms

for Individuals

JUNE 2025

farmers.gov/

Dear Agricultural Partners and New or Prospective Customers,

Thank you for your interest in working with USDA's Farm Service Agency (FSA). Our agency is honored to partner with farmers and ranchers as they navigate every stage of their operation—from getting started to expanding. FSA offers a full suite of programs to help agricultural producers access capital, protect the land and manage risk. We recognize it can be challenging for new customers to navigate the Agency and to get started so we have developed a packet of information that will help producers get to know FSA and will ensure a more productive customer experience when visiting with local FSA staff. FSA is here to grow with you, and you do not have to navigate the agency alone. **Enclosed in this FSA Apply Now Packet is your gateway to USDA Farm Production & Conservation (FPAC) mission area support.**

These forms are needed for customers to participate in FSA and Natural Resources and Conservation Service (NRCS) programs. Specific programs will also have a program application and may also have additional program eligibility forms that need to be completed. Instructions for completing these forms are available at: farmers.gov/working-with-us/common-forms. FSA encourages new customers to contact their local USDA Service Center and schedule a one-on-one appointment with our dedicated FSA employees who are ready and willing to assist new customers in the process of getting started with USDA. You can locate your USDA Service Center's address and phone number at farmers.gov/service-center-locator.

We have tools and flexibilities built into many programs to support you as your farming operation changes, and we want to hear from you as these things change so that we can leverage available resources to assist you. We will also work with you to update your customer records. Also, to participate in FSA's [County Committee election](#) nomination and voting process—an important and unique producer right and privilege—new FSA customers need to report any changes to their agricultural operation to FSA. It's important to file ongoing notice of loss reports, acreage/crop certifications, and to participate in FSA's County Committee election nomination and voting processes.

Additionally, [FSA's Loan Assistance Tool](#) is an online platform that guides interested applicants through the farm loan application process. It helps users check their eligibility, directs them to suitable loan types, provides a documentation checklist, and assists with loan application forms. It was launched by the USDA to expand credit access and provide consistent customer experience for all farm loan applicants.

Our skilled and knowledgeable FSA County Office staff delivers direct, in-person, support to producers in every county in the nation and many U.S. territories. Each state has a State Outreach Coordinator (fsa.usda.gov/programs-and-services/outreach-and-education/state-outreach-coordinators/index) and Beginning Farmer Coordinator (farmers.gov/your-business/beginning-farmers/coordinators) who can connect you to specific resources available through USDA and our partner organizations. The USDA Farmers website (farmers.gov) compiles all farmer-related content from multiple agencies into a one-stop online resource. Here you will find our latest news and announcements, deadlines, tools, the local service center locator and tips on how to prepare for your first visit to your local service center office.

The [Receipt for Service \(RFS\)](#), as required by federal law and USDA regulations, ensures that all USDA customers are properly served in their local offices. All FSA, NRCS, and Rural Development offices are required to provide documentation to you of any services you request. This includes in-person, telephone, and virtual meeting and appointments as well as requests and documentation received via the US Postal Service or email. If the RFS is not offered at the end of your business transaction, you may request it for your records. Additionally, receipts created on or after Aug. 2, 2024, are now accessible online at farmers.gov/accounts. Producers and/or their advocates are always encouraged to share their understanding of the meeting via email with our team.

FSA is committed to helping you navigate the [many](#) opportunities and federal farm program benefits we provide to farmers, ranchers, and landowners to help you reach your production agriculture goals and supporting American agriculture.

Steps to Eligibility:

1. Form AD-2047, *Customer Data Worksheet*.
 - This form will be filled out for all individuals and legal entities (including entity members) who have not previously provided their personal information to USDA that positively identifies the applicant.
2. Form CCC-860, *Socially Disadvantaged, Limited Resource, Beginning and Veteran Farmer or Rancher Certification*, (if applicable).
 - This form is used to certify that an individual, legal entity, or joint operation is a member of one or more of the specific producer groups listed on the form.
3. Establish a Farm Record and Obtain a Farm Number
 - This is required to participate in USDA programs. FSA will need documents to prove your association with the land in your farming operation. There are several ways to prove association with land. For an owner, this may be a property deed. If you do not own the land, you may provide a lease agreement. Additionally, FSA has further methods for operators on heirs' property to prove their association. If your operation is incorporated or an entity, we may need proof of your signature authority and legal ability to sign contracts with USDA.
4. Form AD-1026 *Highly Erodible Land Conservation (HELC) and Wetland Conservation (WC) Certification*)
 - Most USDA programs require a producer complete the AD-1026. If the applicant does not have any farming interests, this can be certified in box 5A. If the applicant does have a farming interest, the form must be completed in its entirety and information must be submitted to establish the farm records for which the certification applies.
5. Form CCC-941, *Average Adjusted Gross Income (AGI)*
 - To participate in many programs, you can't have an average adjusted gross income of more than \$900,000. To certify this, you file the Average Adjusted Gross Income (AGI) Certification and Consent to Disclosure of Tax Information (CCC-941) each year.
- 6a. Form CCC-902I, *Farm Operating Plan for an Individual*
 - Your local Farm Service Agency representative assists you in completing a Farm Operating Plan (CCC-902). Every farming operation completes a CCC-902 to provide information regarding the operation's structure and contributions of capital, equipment, land, labor, and management.
- 6b. Form CCC-902I Short Form, *Farm Operating Plan for an Individual*
 - This is a short form used to collect information about individuals that is used by FSA to determine eligibility for payments. Individuals complete the short form if they are eligible to do so. Part C, question 1 must be answered "No" to use the short form.
7. Form SF-3881, *Payment Enrollment Form for FSA*
 - USDA payments are generally directly deposited with your bank. This form will allow you to set up or change your direct deposit information for USDA payments.
8. Form SF-1199A, *Payment Enrollment Form for NRCS*
 - USDA payments are generally directly deposited with your bank. This form will allow you to set up or change your direct deposit information for USDA payments.

Definitions:**A. Socially Disadvantaged Farmer or Rancher:**

A socially disadvantaged farmer or rancher is a farmer or rancher who is a member of a group whose members have been subject to racial, ethnic, or gender prejudice because of their identity as members of a group without regard to their individual qualities. Groups include: American Indians or Alaskan Natives, Asians or Asian Americans, Blacks or African Americans, Native Hawaiians or other Pacific Islanders, Hispanics, and women (for those selecting a group that includes gender). Note that if applicant only checks “women” without also selecting the other category the selection does not make applicant socially disadvantaged for conservation programs.

For entities requesting to be considered socially disadvantaged, at least 50% of the interest must be held by socially disadvantaged individuals.

B. Limited Resource Farmer or Rancher:

A limited resource farmer or rancher is a farmer or rancher that meets the criteria for both of the following:

- A producer whose direct or indirect gross farm sales do not exceed the amount identified in the Limited Resource Farmer/Rancher Self-Determination Tool* in each of the 2 calendar years that precede the complete taxable year before the relevant program year, adjusted upwards in later years for any general inflation, and

Table 1: Direct and Indirect Gross Sales	
Program Year	Corresponding Years
2017	2014 and 2015
2018	2015 and 2016
2019	2016 and 2017
2020	2017 and 2018

- A producer whose total household income was at or below the national poverty level for a family of four in each of the same 2 previous years reference in paragraph (1) of this definition.

* A limited resource farmer or rancher status can be determined using the web site available through the Limited Resource Farmer and Rancher Online Self-Determination Tool through Natural Resources Conservation Service at <https://lrftool.sc.egov.usda.gov/>.

For entities requesting to be considered limited resource farmer or rancher, all members must be a limited resource farmer or rancher.

Note: This definition is not applicable to Farm Loan Programs.

C. Beginning Farmer or Rancher:

A beginning farmer or rancher is a person or legal entity for which both of the following are true for the farmer or rancher:

- Has not operated a farm or ranch for more than 10 years total, or
- Has obtained status as a veteran (as so defined in 38 U.S.C. 101(2)) during the most recent 10-year period.

For entities requesting to be considered a veteran farmer or rancher, at least 50% of the interest must be held by veteran farmers or ranchers.

E. NAP Coverage Option:

The Noninsured Crop Disaster Assistance Program (NAP) provides financial assistance to producers of non-insurable crops when a low yield, loss of inventory, or prevented planting occurs due to natural disasters. Non-insurable crops are those not insured by the Federal Crop Insurance Corporation. Eligible crops for NAP are commercially grown for food or fiber (excluding livestock and their by-products), commodities, and industrial crops for which crop insurance, excluding pilot coverage, is not available.

Catastrophic coverage is equal to 50 percent of your expected yield and 55 percent of the expected price for the eligible crop (referred to as Basic 50/55). You are not required to pay a fee or a premium for this level of coverage. Additional coverage options and higher levels of coverage are available with a premium. To avail yourself to these options, you must timely file CCC-471 (NAP Application for Coverage) in any FSA County office.

For additional information regarding NAP, visit FSA's NAP page at:

<https://www.fsa.usda.gov/programs-and-services/disaster-assistance-program/noninsured-crop-disaster-assistance/index>

Read attached AD-1026 Appendix before completing form.			
PART A – BASIC INFORMATION			
1. Name of Producer	2. Tax Identification Number (Last 4 digits)	3. Crop Year	
4. Names of affiliated persons with farming interests . Enter “None,” if applicable.			
Affiliated persons with farming interests must also file an AD-1026. See Item 7 in the Appendix for a definition of an affiliated person.			
5. Check one of these boxes if the statement applies ; otherwise continue to Part B.			
A. <input type="checkbox"/> The producer in Part A does not have interest in land devoted to agriculture. Examples include bee keepers who place their hives on another person's land, producers of crops grown in greenhouses, and producers of aquaculture AND these producers do not own/lease any agricultural land themselves. Note: Do not check this box if the producer shares in a crop.			
B. <input type="checkbox"/> The producer in Part A meets all three of the following: <ul style="list-style-type: none">• does not participate in any USDA program that is subject to HELC and WC compliance except Federal Crop Insurance.• only has interest in land devoted to agriculture which is exclusively used for perennial crops, except sugarcane, and• has not converted a wetland after February 7, 2014. Perennial crops include, but are not limited to, tree fruit, tree nuts, grapes, olives , native pasture and perennial forage. A producer that produces alfalfa should contact the Natural Resources Conservation Service at the nearest USDA Service Center to determine whether such production qualifies as production of a perennial crop.			
Note: If either box is checked, and the producer in Part A does not participate in Farm Service Agency (FSA) or Natural Resources Conservation Service (NRCS) programs, the full tax identification number of the producer must be provided, but establishment of detailed farm records with FSA is not required. Go to Part D and sign and date.			
PART B - HELC/WC COMPLIANCE QUESTIONS			
Indicate YES or NO to each question. If you are unsure of whether a HEL determination, wetland determination, or NRCS evaluation has been completed, contact your local USDA Service Center.		YES	NO
6. During the crop year entered in Part A or the term of a requested USDA loan, did or will the producer in Part A plant or produce an agricultural commodity (including sugarcane) on land for which an HEL determination has not been made?			
7. Has anyone performed (since December 23, 1985), or will anyone perform any activities to: A. Create new drainage systems, conduct land leveling, filling, dredging, land clearing, or excavation that has NOT been evaluated by NRCS? If “YES”, indicate the year(s): _____			
B. Improve or modify an existing drainage system that has NOT been evaluated by NRCS? If “YES”, indicate the year(s): _____			
C. Maintain an existing drainage system that has NOT been evaluated by NRCS? If “YES”, indicate the year(s): _____ Note: Maintenance is the repair, rehabilitation, or replacement of the capacity of existing drainage systems to allow for the continued use of wetlands currently in agricultural production and the continued management of other areas as they were used before December 23, 1985. This allows a person to reconstruct or maintain the capacity of the original system or install a replacement system that is more durable or will realize lower maintenance or costs.			
Note: If “YES” is checked for Item 7A or 7B, then Part C must be completed to authorize NRCS to make an HELC/WC and/or certified wetland determination on the identified land. If “YES” is checked for Item 7C, NRCS does not have to conduct a certified wetland determination.			
8. Check one or both boxes, if applicable; otherwise, continue to Part C or D.

PART D – CERTIFICATION OF COMPLIANCE

I have received and read the AD-1026 Appendix and understand and agree to the terms and conditions therein on all land in which I (or the producer in Part A if different) and any affiliated person have or will have an interest. I understand that eligibility for certain USDA program benefits is contingent upon this certification of compliance with HELC and WC provisions and I am responsible for any non-compliance. I understand and agree that this certification of compliance is considered continuous and will remain in effect unless revoked or a violation is determined. I further understand and agree that:

- all applicable payments must be refunded if a determination of ineligibility is made for a violation of HELC or WC provisions.
- NRCS may verify whether a HELC violation or WC has occurred.
- a revised Form AD-1026 must be filed if there are any operation changes or activities that may affect compliance with the HELC and WC provisions. I understand that failure to revise Form AD-1026 for such changes may result in ineligibility for certain USDA program benefits or other consequences.
- affiliated persons are also subject to compliance with HELC and WC provisions and their failure to comply or file Form AD-1026 will result in loss of eligibility for applicable benefits to any individuals or entities with whom they are considered affiliated.

**APPENDIX TO FORM AD-1026
HIGHLY ERODIBLE LAND CONSERVATION (HELC) AND
WETLAND CONSERVATION (WC) CERTIFICATION**

1. Overview

The following conditions of eligibility are required for a producer to receive any U.S. Department of Agriculture (USDA) loans or other program benefits that are subject to the highly erodible land conservation (HELC) and wetland conservation (WC) provisions. Unless an exemption has been granted by USDA, the producer agrees to all of the following on all farms in which the producer, and any affiliated person to the producer (as specified in 7 CFR Part 12), has an interest:

- **NOT** to plant or produce an agricultural commodity on highly erodible land or fields unless being farmed in accordance with a conservation plan or system approved by the Natural Resources Conservation Service.
- **NOT** to plant or produce an agricultural commodity on a wetland that was converted after December 23, 1985.
- **NOT** to have converted a wetland after November 28, 1990, for the purpose, or to have the effect, of making the production of an agricultural commodity possible on such converted wetland.
- **NOT** to convert a wetland by draining, dredging, filling, leveling, removing woody vegetation, or any other activity that results in impairing or reducing the flow and circulation of water in a way that would allow the planting of an agricultural commodity.
- **NOT** to use proceeds from any Farm Service Agency farm loan, insured or guaranteed, or any USDA financial assistance program, in such a way that might result in negative impacts to a wetland, except for those projects evaluated and approved by Natural Resources Conservation Service.

2. Statutory and Regulatory Authority

The Food Security Act of 1985, as amended, requires producers participating in most programs administered by the Farm Service Agency (FSA), Natural Resources Conservation Service (NRCS), and the Risk Management Agency (RMA) to comply with HELC and WC provisions on all land owned or farmed that is considered highly erodible or a wetland unless USDA determines an exemption applies. Producers participating in these programs, and any individual or entity considered to be an affiliated person of a participating producer, are subject to these provisions. The regulations covering these provisions are set forth at 7 CFR Part 12; all such provisions, whether or not explicitly stated herein, shall apply.

3. Explanation of Terms

Agricultural commodity is **any** crop planted and produced by annual tilling of the soil, including tilling by one-trip planters, or sugarcane.

Highly erodible land is any land that has an erodibility index of 8 or more.

Highly erodible fields are fields where either:

- 33.33 percent or more of the total field acreage is identified as soil map units that are highly erodible; or
- 50 or more acres in such field are identified as soil map units that are highly erodible.

Perennial crop is any crop that is planted once and produces crops over multiple years. Go to www.nrcs.usda.gov/compliance for a list of perennial and annual crops.

Wetland is an area that:

- has a predominance of hydric soils (wet soils);
- is inundated or saturated by surface or groundwater (hydrology) at a frequency and duration sufficient to support a prevalence of hydrophytic (water tolerant) vegetation typically adapted for life in saturated soil conditions; and
- under normal circumstances supports a prevalence of such vegetation, except that this term does not include lands in Alaska identified as having a high potential for agricultural development and a predominance of permafrost soils.

4. NRCS and FSA Determinations

When making HELC and WC compliance determinations:

- NRCS makes technical determinations; these include :
 - For HELC compliance:
 - whether land is considered highly erodible ;
 - establishing conservation plans or systems; and
 - whether highly erodible fields are being farmed in accordance with a conservation plan or system approved by NRCS.
 - For WC compliance:
 - whether land is a wetland and if certain technical exemptions apply , such as prior converted;
 - whether a wetland conversion has occurred.
- FSA's responsibilities include:
 - making eligibility determinations, such as who is ineligible based upon NRCS technical determinations of non-compliance.
 - acting on requests for application of certain eligibility exemptions, such as the good faith relief exemption.
 - maintaining the official USDA records of highly erodible land and wetland determinations. The determinations are recorded both within the geographic information system and the automated farm and tract records maintained by FSA; however, it is important to know that determinations may not include all of a producer's land. If a producer is uncertain of the highly erodible land and wetland determinations applicable to any of the producer's land, the producer should contact the appropriate USDA Service Center for assistance.

5. HELC and WC Non-Compliance - FSA and NRCS Programs

Producers who are not in compliance with HELC and WC provisions are not eligible to receive benefits for most programs administered by FSA and NRCS. If a producer received program benefits and is later found to be non-compliant, the producer may be required to refund all benefits received and/or may be assessed a penalty.

In particular, unless exemptions apply, a producer participating in FSA and NRCS programs must: not plant or produce an agricultural commodity on a highly erodible field unless such production is in compliance with a conservation plan or system approved by NRCS; not have planted or produced an agricultural commodity on a wetland converted after December 23, 1985; and, after November 28, 1990, must not have converted a wetland for the purpose, or to have the effect, of making the production of an agricultural commodity possible on such converted wetland.

A producer who violates HELC or WC provisions is ineligible for applicable FSA and NRCS benefits for the year(s) in violation. A planting violation, whether on highly erodible land or a converted wetland, results in ineligibility for benefits for the year(s) when the planting occurred. A wetland conversion violation results in ineligibility beginning with the year in which the conversion occurred and continuing for subsequent years, unless the converted wetland is restored or mitigated before January 1st of the subsequent year.

6. HELC and WC Non-Compliance - Risk Management Agency - Crop Insurance Policies Reinsured by the Federal Crop Insurance Corporation

Producers obtaining federally reinsured crop insurance will not be eligible for any premium subsidy paid by the Federal Crop Insurance Corporation (FCIC) for any policy or plan of insurance if the producer:

- has not filed a completed Form AD-1026 with FSA certifying compliance with HELC and WC provisions; or
- is not in compliance with HELC and WC provisions.

Unless an exemption applies, a producer must:

- not plant or produce an agricultural commodity on a highly erodible field, unless such production is in compliance with a conservation plan approved by NRCS;
- not plant or produce an agricultural commodity on a wetland converted after February 7, 2014; and
- not have converted a wetland for the purpose, or to have the effect, of making the production of an agricultural commodity possible on such converted wetland after February 7, 2014.

A producer is ineligible for any premium subsidy paid by FCIC on all policies and plans of insurance for the reinsurance year (July 1 – June 30) following the reinsurance year of a final determination of a violation of HELC or WC provisions, including all administrative appeals, unless specific exemptions apply. Further, a producer will be ineligible for any premium subsidy paid by FCIC on all policies and plans of insurance for a reinsurance year if they do not have a completed Form AD-1026 on file with FSA certifying compliance on or before the June 1 prior to the beginning of the subsequent reinsurance year (July 1), unless otherwise exempted. RMA will contact FSA to determine compliance with HELC and WC provisions and the filing of Form AD-1026 prior to the beginning of a reinsurance year, which begins on July 1. If the producer is not in compliance and is not exempt, the producer will be ineligible for premium subsidy for all crops with a sales closing date between the following July 1 through the next June 30.

7. Affiliated Persons

Any affiliated person of a producer requesting benefits subject to HELC and WC provisions must also be in compliance with those provisions. Ineligibility of a producer will also apply to affiliated persons of that producer. If an affiliated person has a farming interest (as owner, operator, or other producer on any farm), the affiliated person must also file Form AD-1026 certifying compliance with HELC and WC provisions in order for the producer requesting benefits to be eligible.

Use this table to determine affiliated persons who must be in compliance with HELC and WC provisions and file Form AD-1026. If you are unsure about an affiliated person determination, please contact FSA at your local USDA Service Center for assistance.

GENERAL INFORMATION ON AVERAGE ADJUSTED GROSS INCOME – PART A

Individuals or legal entities that receive benefits under most programs administered by CCC cannot have incomes that exceed a certain limit set by law. For entities, both the entity itself, and its members cannot exceed the income limitation. If a member, whether an individual or an entity, of an entity exceeds the limitation, payments to that entity will be commensurately reduced according to that member's direct or indirect ownership share in the entity. (All members of the entity must also submit this form to verify income the limitation is met.)

Adjusted Gross Income is the individual's or legal entity's IRS-reported adjusted gross income consisting of both farm and nonfarm income. A three-year average of that income will be computed for the three years of the relevant base period identified on the first page of this form to determine eligibility for the applicable program year. Individuals or legal entities with average **adjusted gross income** greater than \$900,000 shall be ineligible for all payments and benefits under the commodity, price support, disaster assistance, and conservation programs.

HOW TO DETERMINE ADJUSTED GROSS INCOME (AGI)

Individual – Internal Revenue Service (IRS) Form 1040 filers, specific lines on that form represent the adjusted gross income and the income from farming, ranching, or forestry operations.

Trust or Estate – the adjusted gross income is the total income and charitable contributions reported to IRS.

Corporation – the adjusted gross income is the total of the final taxable income and any charitable contributions reported to IRS.

Limited Partnership (LP), Limited Liability Company (LLC), Limited Liability Partnership (LLP) or Similar Entity – the adjusted gross income is the total income from trade or business activities plus guaranteed payments to the members as reported to the IRS.

Tax-exempt Organization – the adjusted gross income is the unrelated business taxable income excluding any income from non-commercial activities as reported to the IRS.

HOW TO DETERMINE AVERAGE ADJUSTED GROSS INCOME

The period for calculation of the average AGI will be of the three taxable years preceding the most immediately preceding complete taxable year for which benefits are requested. This table shows examples for applicable years to be used in determining average AGI.

IF the crop year is...	THEN... Average AGI will be based on the following years....
2019	2017, 2016, and 2015
2020	2018, 2017, and 2016
2021	2019, 2018, and 2017
2022	2020, 2019, and 2018
2023	2021, 2020, and 2019

GENERAL INFORMATION ON CONSENT TO DISCLOSURE OF TAX INFORMATION – PART B

This consent allows IRS's access to, and use of, certain items of return information to perform calculations, using a methodology prescribed by the USDA, that will assist USDA in its verification of a program participant's compliance with the adjusted gross income (AGI) limitations necessary for participation in, and receipt of, commodity, conservation, price support or disaster program benefits. This consent also permits the USDA to receive certain items of return information for its eligibility determination.

This consent authorizes the disclosure of these items of return information for only the time period specified. Each item of information requested on this form is needed for the IRS to (1) locate, and verify, your tax information; (2) perform the requisite Average AGI calculations; and (3) provide the USDA with the legal entity's name and Taxpayer Identification Number (TIN), the type of return from which the specified items were located for use in the calculation, and whether or not the average AGI is above or below eligibility requirements. The IRS will not provide the USDA with any of the items specified on this consent form that it uses to perform the calculations or the average AGI figure.

This form can only be signed by the person authorized under state law to sign this consent for the legal entity identified in Item 2. **An approved Power of Attorney (Form FSA-211) on file with USDA cannot be used as evidence of signature authority when completing this form.**

Internal Revenue Code, §6103(c), limits disclosure and use of return information received pursuant to the taxpayer's consent and holds the recipient subject to penalties for any unauthorized access, other use, or redisclosure without the taxpayer's express permission or request.

Glossary of Terms

Acreage Report — documents the crops grown on your farm or ranch and their intended uses. You must file timely acreage reports to be eligible for many USDA programs.

Advance Payment — a payment that may be made available in advance of the installation of the conservation practice.

Assignment of Payment — this form known as the CCC-36 allows the participant to directly assign part or all of a payment received for **Farm Bill** program participation to another individual, group of individuals or entities.

Farm Bill — a package of legislation passed roughly once every 5 years that impacts farming livelihoods, how food is grown, what kinds of foods are grown. It covers commodities, conservation, nutrition, loans, rural development, research, extension services, forestry, energy, horticulture, crop insurance, labor safety, workforce development, and much more.

Conservation Concern — an expected degradation of the soil, water, air, plant, animal, or energy resource base to an extent that the sustainability or intended use of the resource is impaired. This may also be called a **Resource Concern**.

Conservation Loan — an FSA Direct or Guaranteed Loan that can be used to fund the implementation of approved conservation practices in accordance with an NRCS Conservation Plan of Forest Service Steward Management Plan.

Conservation Plan — a free tool designed to help you better manage the natural resources on your farm or ranch. An NRCS **conservationist** will meet with you to evaluate the soil, water, air, plant, and animal resources on your property and offer several alternatives to address the resource conditions. The alternatives you decide to use are recorded in your conservation plan, which includes a schedule for installation.

Conservation Planning Activities — activities for which producers can receive NRCS funding to engage **Technical Service Providers** (TSPs) to help identify and assess the resource concerns against planning criteria in a **conservation plan** and determine the practices to implement.

Conservation Practice Standard — NRCS guidance that contains information on why and where a practice is applied and sets forth the minimum quality criteria that must be met during the application of a practice in order for it to achieve its intended purpose.

Conservationist — an individual who provides technical expertise and conservation planning for farmers, ranchers, and forest landowners wanting to make conservation improvements to their land.

Cooperative Extension Service — assists the public in the areas of agriculture, lawn and garden, community development, 4H and youth development, family, and consumer education.

Design Implementation Activities — activities for which producers can receive NRCS funding to engage **Technical Service Providers** (TSPs) to help identify how to implement systems, practices, and activities. These may include the development of specific practice designs, management prescriptions, or other instructions to implement a producer's selected conservation system.

FSA County Committee — a committee elected by the agricultural producers in the county or area to help deliver farm program at the local level and work to ensure programs serve the needs of local producers.

Direct Loan — Direct Loans offer up to 100 percent financing and are a valuable resource to help farmers and ranchers purchase or enlarge family farms, improve and expand current operations, increase agricultural productivity, purchase livestock or equipment, recover from natural disasters and assist with land tenure to save farmland for future generations. All FSA Direct Loans are financed and serviced by the Agency through local Farm Loan staff. The funding comes from Congressional appropriations as part of the USDA budget.

Emergency Loan — an FSA Direct Loan that can be used to help qualified operators recover from a declared natural disaster. This loan can help with paying costs of repairing or replacing damaged property, replacing lost crop income and provide funds for operating costs. The maximum loan amount for a Direct Emergency Loan is \$500,000.

Easement — an interest in land defined and delineated in a deed whereby the landowner conveys rights, title, and/or interests in a property to the grantee, but the landowner retains fee-title ownership.

Farm and Tract Number — Farm Number is a unique identifier assigned by FSA to a farm. Tract Number is a unique identifier assigned to a land unit that is part of a farm.

Farm Ownership Loan — an FSA Direct or Guaranteed Loan that can be used to purchase or expand a farm or ranch. This loan can help with paying closing costs, constructing or improving buildings on the farm, or to help conserve and protect soil and water resources. The maximum loan amount for a Direct Farm Ownership Loan is \$600,000, and for a Guaranteed Farm Ownership Loan is \$2,251,000.

Financial Assistance — funds paid to an eligible program participant under an agreement entered into with NRCS.

Guaranteed Loan — FSA's Guaranteed Farm Loan Programs help family farmers and ranchers to obtain loans from USDA-approved commercial lenders at reasonable terms to buy farmland or finance agricultural production. FSA will guarantee farm loans through a commercial lender up to \$2,251,000. Financial institutions receive additional loan business as well as benefit from the safety net the FSA provides by guaranteeing farm loans up to 95 percent against possible financial loss of principal and interest.

Heirs Property — a legal term that refers to family land inherited without a will or legal documentation of ownership.

Highly Erodible Land (HEL) — cropland, hayland, or pasture that can erode at excessive rates. It would contain soils that have an erodibility index of eight or more. If a producer has a field identified as highly erodible land, that producer is required to maintain a conservation system of practices that keeps erosion rates at a substantial reduction of soil loss.

Microloan — an FSA Direct Loan, either Farm Ownership or Operating Loan, designed to meet the needs of small and beginning farmers, or for non-traditional and specialty operations by easing some of the requirements and offering less paperwork. The maximum loan amount for a Microloan is \$50,000.

Operating Loans — an FSA Direct or Guaranteed Loan that can be used to purchase livestock, seed, and equipment. This loan can also cover farm operating costs and family living expenses while a farm gets up and running. The maximum loan amount for a Direct Operating Loan is \$400,000, and for a Guaranteed Operating Loan is \$2,251,000.

Practice Implementation — the action taken by a producer or contractor to install or carry out a planned conservation practice to address a natural resource concern, meet the technical requirements of the design standard, and achieve an environmental benefit.

Ranking Pools — customized to incorporate locally led input and are established to allow program applications with similar land uses/production types, resource concerns, and in similar geographic areas to compete for funding with similar operations.

Risk Management — the forecasting and evaluation of financial risks together with the identification of procedures to avoid or minimize their impact.

Schedule of Operations — this document identifies the conservation practices to be implemented, timing of the implementation, practice location, and payment rates.

Service Center — location where you can connect with FSA, NRCS, or Rural Development employees for your business needs. Find your local Service Center and agency offices using the USDA Service Center Locator at farmers.gov/service_locator.

Technical Assistance — guidance provided to farmers, ranchers and forestland owners with the knowledge and tools they need to conserve, maintain, and restore the natural resources on their lands and improve the health of their operations for the future.

Technical Service Provider (TSP) — an individual or business with technical expertise in conservation planning and design that serve as consultants to provide services on behalf of NRCS.

Youth Loan — a type of Operating Loan for young people between 10–20 years old who need assistance with an educational agricultural project. Typically, these youth are participating in 4-H clubs, FFA, or a similar organization.

Wetland — wetlands are defined differently by different people and different government agencies. But there are three factors of commonality in these various definitions; wetlands can be defined by having wetland vegetation (hydrophytes) or supporting such vegetation under normal circumstances, having a predominance of hydric soils, and having wetland hydrology (inundated or saturated by surface or groundwater at a frequency and duration sufficient to support a prevalence of vegetation typically adapted for life in saturated soil conditions).
