**Increased section 179 expense deduction dollar limits.** The maximum amount you can elect to deduct for most section 179 property you placed in service in 2025 has increased to \$2,500,000. This limit is reduced by the amount by which the cost of the section 179 property placed in service during the tax year exceeds \$4,000,000. Also, the maximum section 179 expense deduction for sport utility vehicles placed in service in tax years beginning in 2025 is \$31,300. See [Dollar Limits](#) under [Section 179 Expense Deduction](#), later.

## Sec 179 vs Bonus Cautions

- Sec 179 can be made to a specific dollar amount
- Bonus is claimed (or not) on all assets in a class life
- Sec 179 cannot be used to create a tax loss
- Bonus can be used by more taxpayers & activities
- Sec 179 is claimed first
- Sec 179 amount can be amended

# Single Purpose Ag or Hort Structures – Yes 179

- A single-purpose **agricultural (livestock) structure** is any building or enclosure specifically designed, constructed, and used for both the following reasons.
  - To house, raise, and feed a particular type of livestock and its produce.
  - To house the equipment, including any replacements, needed to house, raise, or feed the livestock.
- A single-purpose **horticultural structure** is either of the following.
  - A greenhouse specifically designed, constructed, and used for the commercial production of plants.
  - A structure specifically designed, constructed, and used for the commercial production of mushrooms.

**A structure must be used only for the purpose that qualified it**

# Machinery Depreciation Example

  - Purchase cost was \$90,000, fully depreciated
- Purchase price of replacement Tractor \$185,000
- Net Trade-in \$100,000  
(irrelevant for tax)
- Must report a gain of \$85,000 on Form 4797
- Full purchase price eligible for depreciation on Form 4562, Sch F
- Saves ~ \$13,000 SE tax potentially
- Gain on Form 4797 is ordinary gain and thus QBID eligible
  - QBID – Qualified Business Income Deduction 20%

# Machinery Depreciation Example

\$100,000 Purchase price of used tractor on April 25, 2025

New farm equipment has a 5 year recovery period

# NEW Type of Eligible 179 Property – IRC 168(n)

Qualified production property means that portion of any nonresidential real property

- which is used by the taxpayer as an integral part of a qualified production activity,
- which is placed in service in the United States or any possession of the United States,
- the original use of which commences with the taxpayer,
- the construction of which begins after January 19, 2025, and before January 1, 2029,
- which is designated by the taxpayer in the election made under this subsection, and
- which is placed in service before January 1, 2031.
- The term “production” shall not include activities other than agricultural production and chemical production.

# Change to IRS Pub 225 “Farmers Tax Guide”

- Prior to 2023, sales of machinery were not included in the definition of “gross income from farming”
- This caused gains from trade-ins reported on Form 4797 to perhaps “disqualify” a taxpayer as farmer
- If not a farmer, no longer eligible to make only 1 estimated tax payment on January 15 of following year or file by March 1 with no estimated payments
- 2023 Pub 225 Significant Change: **sales of machinery are now included as** “gross income from farming”

Gross income from farming is the total of the following amounts from your tax return.

- Gross farm income from Schedule F (Form 1040).
- Gross farm rental income from Form 4835.
- Gross farm income from Schedule E (Form 1040), Parts II and III.
- Gains from the sale of livestock used for draft, breeding, sport, or dairy purposes reported on Form 4797.
- Gains from the sale of depreciable farm equipment reported on Form 4797.
